Summary

4th-year Computer Science Engineering student with strong expertise in Java, Spring Boot, Microservices, Kafka, and Backend Development. Passionate about building secure, scalable, event-driven distributed systems and solving real-world engineering problems.

Projects

Banking & Payment Microservices Platform

GitHub

- Developed an enterprise banking platform using Spring Boot Microservices with secure OAuth2/Auth0 authentication and role-based authorization.
- Implemented Customer, Account, Payment Orchestrator, and Settlement microservices using Kafka, Saga Pattern, PostgreSQL, Docker, and Event-Driven Architecture.

Tech: Java, Spring Boot, Kafka, PostgreSQL, Docker, Auth0, OAuth2, Spring Security

AI Resume Builder

GitHub

- Built an ATS-friendly resume generator with AI-powered resume suggestions.
- Designed a responsive and user-friendly interface for resume creation.

Tech: JavaScript

Chat Application

GitHub

- Developed a real-time chat application using the MERN Stack and Socket.IO.
- Implemented secure user authentication and instant messaging features.

Tech: MongoDB, Express.js, React.js, Node.js, Socket.IO

TechBlog-API

GitHub

- Developed a full-stack blogging platform with user authentication, post management, comments, likes, and profile management.
- Built secure REST APIs with Spring Boot and integrated MySQL for persistent data storage.

Tech: Java, Spring Boot, React, MySQL, JWT, REST APIs

Skills

Languages: Java, JavaScript

Technologies: Spring Boot, Spring Security, React, Kafka, Docker, OAuth2, Auth0, REST APIs

Concepts: OOP, Microservices, Event-Driven Architecture, Saga Pattern, System Design, DSA

Tools: Git, GitHub, IntelliJ IDEA, VS Code, PostgreSQL, MySQL, MongoDB

Education

B.Tech CSE

2023 – Present

Vignan University

CGPA: 7.6 | 100% Scholarship

Senior Secondary (+2)

2021 – 2023

National Infotech

73%

Secondary (Class X)

2021

Bharat Baba School

88.7%

Additional

- Strong interest in backend systems and scalable architecture
- Actively learning system design and modern technologies
